Dear Dona Gabriela:

It was very kind of you to have Mr. Braden's letter to you sent to me. I have not already made the formal application as suggested in his letter because I was given no encouragement by any of the staff in the Division of Cultural Cooperation to do so, although I received a letter in December asking me if I was interested in a position in that division of the Department of State. However, I shall do so this coming week and advise you if anything happens.

In the meanwhile I have applied to the United Nations and several organizations in New York that have relations with Brazil. The whole program seems to be undergoing a reorganization and the fact that Bento is doing honor work at his school spurs me on to make every effort to obtain a position whereby we may remain here.

To be able to enjoy a New England spring is in itself a compensation for our trip for it is the one thing I most missed during my seventeen years of residence in Brazil. It is a miracle that never grows old.

I was very happy to know that you are in New York and the work you are doing is one of the most important of this post-war period, I believe. Knowing that you are so busy makes me doubly appreciative of your interest in my getting placed and you are nothing short of an angel!

I'm sending to Miss Georgi some more clippings about you that I found in a trunk; they may be of use to you.

With many, many thanks,

Sincerely,

Mary Katschogueria
