Dear Madam Gabriela

It is some time since I had news of you. We sincerely hope that you are better in health & that you have got over your attack of appendicitis without having to undergo an operation. Gin Gin is well he still continues to go to the sea side as the weather is still very warm but he does not go any more bath as I think he has done enough now, & they will make him two thin. He thinks & prays for you every day & is delighted that you have thought him a teacher, it is just what he wished. We had a letter from his teacher this week & she tells us that they have named her teacher of a place very near Bari so this year she will not be at Lavagna. The Director of the school has been pensioned & poor man he has taken it so very much to heart that he is at present seriously ill. So far we do not know who the new Director will be. Alice returned home last Saturday 2nd 7
