Dear Miss Mistral,

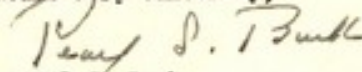

I am writing to you for some cooperation on behalf of one of our most distinguished American girls' schools, The Walt Whitman School, at 521 Fifth Avenue, New York 17, New York. This school wishes to find schools in other countries with which to cooperate on a science program. It is an interesting project, totally non-political and purely international.

They wish the cooperating schools to be as non-politically controlled as possible, flexible in programs, with a strong educator at the end, and with a sufficiently influential standing among other schools of the country so that it may become a demonstration center.

Would you be so kind as to send me the name and address of the schools in your country which you feel would be most willing to work in this fashion with an American school?

Thanking you, I am

Yours very sincerely,

Pearl S. Buck
