membership.

To:

Mme. Gabriela Mistral,
Chilean Poet,
Los Angeles.

Madam,

We have the extraordinary honour to inform you that the Assembly General in Paris because of your public merits unanimously adopted to accept you for our corresponding member.

From the very name of our Institution you can realize that we only wish to further and strengthen the international collaboration and friendship by introducing persons of all nations to one another. Thus a greatest possible effort will be done aiming to contribute -as much as possible- to an understanding, cooperation and friendship among the nations, races and religions.

Because of the long war we had but recently the opportunity to renew our activity. However our Institution is already spread in more than a 100 countries. As its members there are figuring world known American, British, Russian, French, Chinese, Indian, Dutch, Yugoslav, etc. ministers, senators, scientists, authors, journalists, a.s.o.

Finally we wish to inform you that in October we shall publish our Member's Catalogue as well as the jubilee issue of our revue "World's Echo", the themes of which will be LIBERTY and PEACE. The most prominent authors, journalists and politicians of all countries had already contributed their articles. Our Assembly decided to invite you as the most deserving Chilean author to put down an article for this issue. As only you from Chile are invited for this article so we need scarcely mention that we shall feel exceedingly obliged to you if the article will be with particular regard to Chile and its efforts for liberty and a lasting peace in the world. We must add that it would be of extraordinary importance for your country to be represented in this issue which will be printed in a very large edition and sent in more than 100 countries.

Thanking you beforehand for your kindness and looking forward to your favourable reply, we remain, Madam,

Yours very truly,
Secretary General:
