

Monrovia August 19

Technological Institute
Pasadena
California
Department of Engineering or Physics

Dear Gentlemen,

I am a Professor of Higher Mathematics in the Instituto Tecnico Industrial de Tijuana(Mexico).I studied all courses of Mathematics in the University of Compostela(Spain) and in the Universidad Nacional Autonoma(Mexico city).

I would like to study of the courses of Engineering or Physics that that Institute had;if you could send me the list of the courses and if possible study the courses that i have not studied and then receive my Diploma

I am a Spanis refugee-not a communist-and my economic situation is not very well and I would like to know if could you issue a scholarship to study and if it could be possible to receive me.

I am spending my vacation at the home of Gabriela Mistral(Nobel Prize of Literature 1945).If you need more references you could call Mies Mistral in Monrovia . 1305 Buena Vista Street (Number of telephone 3211)

Thanking you

Yours very truly

Joaquin seijo alonso
