

Monrovia, August 19

Mr.
Griffith Evans
President of Department of Mathematics
University of California
Berkeley, Calif.

Dear President,

Through suggestion of Prof. Morley, President of the Department of Spanish and Portuguese in your University, I am writing you to see if you could to kind for indicate to me if I might study in your University.

I am Spanish refugee-not a communist-and I studied Mathematics and Physics in the "Universidad Literaria de Compostela" (Spain) and the "Universidad Nacional Autónoma" (Mexico city), where I did all studies for the Diploma "Maestro en Ciencias" (excepting Conics Sections, Mathematical Analysis, II and Theoretical Physics, 1st); but I had to return to work in order to live, so I didn't continue my studies as I wish to.

Since two years ago I have been working in the INSTITUTO TECNICO INDUSTRIAL (Tijuana, Mexico) in the chairs of Analytic Geometry and Calculus and Integral Calculus and Higher Algebra. I inclose a certificate from Instituto Tecnico Industrial.

I wish to continue my studies in your University to get the Diploma of Doctor (Mathematics or Physics) but in order to continue my studies I would have to have some job for my living expenses. If I could have a scholarship for the course or a chair of Calculus, Analytic Geometry in your University or another thing, I would be very grateful.

I can write and translation the english. I speak very little, because of lack of practice, but a very short time I would be able to speak it.

I also inclosing my references and my curriculum vitae

Thanking you

Yours very truly

Joaquín Seijo y Alonso
