

First state highway school building

The first state highway school building, which is being constructed at the intersection of the highway and the main road, is now under construction. The building is a two-story structure, and the foundation has been laid. The building is being constructed by the state highway department, and it is expected to be completed within a few months. The building will be used for the purpose of teaching the children of the highway workers, and it will be a great benefit to the community. The building is being constructed on a plot of land which was donated by the state highway department, and it is a great example of the state's commitment to the education of its citizens. The building is being constructed in a modern style, and it will be a great addition to the community.
