Professor Magda Arce
Department of Spanish & Portuguese

Dear Professor Arce

David Gardner talked with me, several times, appreciatively and enthusiastically about the work you are doing in evaluating and describing the Gabriela Mistral materials which you discovered and rightly wish to protect for scholarship. David, I am sure, used the word "inventory" to describe the task you have voluntarily undertaken with full understanding of its scope, he did not spell it out because he knew I was aware of it -- and equally appreciative.

I look forward to meeting and to working with you in the next steps toward preserving these items. I shall await a call from you.

Sincerely,

Donald C. Davidson
