

Environmental Science and Technology: Editorial Board

The editorial board of Environmental Science and Technology is composed of leading experts in the field of environmental science and technology. The board is responsible for the selection and review of manuscripts submitted for publication in the journal. The board members are chosen for their expertise in their respective fields and their ability to provide constructive criticism and guidance to authors. The board also oversees the journal's content and ensures that it remains up-to-date and relevant to the field. The board members are elected by the journal's readers and serve for a period of three years. The board is composed of 15 members, including 10 scientists and 5 technologists. The board members are located in various countries around the world, ensuring a diverse and international perspective on environmental science and technology.
