

Documentary about Value of Bioscience Research ICF

■ **Documentary** The documentary film "The Value of Bioscience Research" is a 15-minute film that explores the importance of bioscience research in the 21st century. It features interviews with leading scientists and policymakers, and highlights the role of the National Institutes of Health (NIH) in supporting this research.

The film is available for viewing on the NIH website at <http://www.nih.gov/bioscience>. It is also available for purchase from the NIH Film and Video Service at <http://www.nih.gov/fvs>.

The film is a valuable resource for anyone interested in the future of bioscience research. It provides a comprehensive overview of the current state of the field, and offers insights into the challenges and opportunities ahead.

The film is also a great tool for education and outreach. It can be used in classrooms, at public events, and in other settings where people are interested in learning more about bioscience research.

For more information about the film, please contact the NIH Film and Video Service at film@nih.gov or call 1-800-451-6011.
