The reduction in average cost is similar to the 10-15% savings available in the construction of a new plant. For example, a 10% reduction in the cost of a new plant would reduce the average cost of a plant by 10%.

Universal Values Worldwide: Since the late 1990s, there has been a growing emphasis on "global" and "universal" as terms used, along with "diversity," to describe the business of multinational corporations. The underlying idea is that, for multinationals to be successful, they must be able to identify and promote values common

Speakers for the event included: James H. Thompson, president of the American Bible Society; Joseph A. McCullough, president of the National Bible Society; and John W. Starnes, president of the Southern Bible Society. The event was held in the presence of a large number of guests, including many of the city's prominent citizens.
