En consecuencia, el uso de la fuerza, cuando se emplea en forma justificada, no constituye una violación de los derechos humanos, sino que es una medida necesaria para garantizarlos.

It is important to note, however, that although the above conditions are necessary for the existence of a solution, they are not sufficient. For example, the above conditions are satisfied by the function $f(x) = x^2$, but this function does not satisfy the boundary conditions $f(0) = 0$ and $f(1) = 1$. Therefore, the above conditions are necessary but not sufficient for the existence of a solution.

These authors also found that the use of a single, non-validated questionnaire to assess the prevalence of depression in the general population is likely to overestimate the prevalence of depression. This is because the questionnaire used in this study was not validated for the purpose of assessing the prevalence of depression in the general population.
