

Continúan Muestras de Pesar por el Deceso de Leonardo Espinoza

J. Am. Stat. Ass. 1991, 86, 103-110. This article is a review of the literature on the use of the term "statistical significance" in the social sciences. The author argues that the term is a misnomer and should be replaced by "statistical evidence". The author also discusses the use of the term "statistical significance" in the medical literature and the use of the term "statistical significance" in the legal system.
