

19.5% of the patients had a history of smoking, 21.4% had a history of alcohol abuse, and 11.1% had a history of hypertension.

It is difficult to determine the precise identity of the  
gravelly soil which is being washed away by the stream.  
The soil is composed of fine sand, silt, and clay, with some  
coarse gravel. The soil is very light-colored, almost white,  
and has a high water content. It appears to be a loamy soil.  
The soil is being washed away by the stream, and it is  
likely that it is being transported downstream.

It is the same process, and it can be modified as the  
circumstances require. It is the right way to do  
the work, and it is the best way to do it.

Das dritte Kapitel beschreibt die gesetzlichen  
und praktischen Maßnahmen zur Sicherung der  
sozialen Sicherheit und zur Förderung der  
sozialen Entwicklung. Es geht um die gesetzliche  
Vereinbarkeit von Arbeit und Familie, um die  
sozialen Sicherheitsmaßnahmen für Kinder und  
Jugendliche sowie um die sozialen Sicherheitsmaßnahmen  
für Erwachsene. Das Kapitel schließt mit einer  
Betrachtung über die sozialen Sicherheitsmaßnahmen  
für Menschen mit Behinderungen.

"Now I have all the time I want to think over these  
complicated questions, and I shall do whatever it is that  
you say. Please do not give me any trouble now,  
and we will see what sort of things you can provide, and  
then I will be much obliged to you. I am very sorry to  
have to do this, but there are just too many people  
here who are not satisfied with the way things are run.  
I hope you will understand my position, and I hope  
that the next stage in this is just to consider whether or  
not I should go on.

The preceding is a description of the two main existing types of methods for solving a nonnegative linear least squares problem. In the next section we shall discuss a third type of method, namely one based on iterative refinement, which has the advantage of being able to make use of the information contained in the error bounds for the components of the solution vector.
