

Final class discussion

The discussion of our research question is ~~as follows~~ as follows:
The first group of students in the first year of the program were asked to predict what they would do if given the chance. This was done in the first week of the year. The second group of students in the first year of the program were asked to predict what they would do if given the chance. This was done in the first week of the year. The third group of students in the first year of the program were asked to predict what they would do if given the chance. This was done in the first week of the year. The fourth group of students in the first year of the program were asked to predict what they would do if given the chance. This was done in the first week of the year.

The first group of students predicted that they would be more likely to take risks than the second group of students. The second group of students predicted that they would be less likely to take risks than the first group of students. The third group of students predicted that they would be more likely to take risks than the fourth group of students. The fourth group of students predicted that they would be less likely to take risks than the third group of students.
