"*W. H. D.*" in his handwriting. "W. H. D." was the name of a man who had been a member of the Society for many years, and he had written a number of poems and articles for the magazine. The author of the poem was a friend of W. H. D., and he had written it in memory of him. The poem is a挽歌 (wǎigē) or哀歌 (āigē), which is a type of poem that expresses grief or sorrow. It is a very touching and emotional poem, and it shows the author's deep respect and admiration for W. H. D.

As 1790 approached, it became clear that the Spanish  
and their Indian subjects would have to leave California.  
In 1790, a decree was issued by the Viceroy of Mexico  
expelling all Indians from the missions.

“What is the best way to get rid of the disease?”  
“The best way is to stop smoking,” he said.  
“How can we encourage smokers to quit?”  
“We can tell them about the risks of smoking,  
such as heart disease and cancer. We can also  
offer them support and encouragement to help  
them quit. There are many resources available  
to help people quit smoking, such as nicotine  
replacement therapy, behavioral therapy, and  
counseling.”

1922. After the first year of the war, the government of India sent a delegation to the League of Nations to protest against the Japanese aggression in Manchuria. The League, however, did not accept the Indian delegation's report. In 1923, the Indian delegation was invited to the League of Nations again. This time, the Indian delegation was successful in getting the League to accept their report. The League also passed a resolution condemning the Japanese aggression in Manchuria.

encore pu faire l'acquisition de nos deux dernières portes.  
Pour répondre à ce fait, nous avons  
dû nous résigner à faire nos portes dans le  
métal, mais nous n'en sommes pas très-satisfaits.

For instance, suppose we have a class variable *count* which starts at zero. Then the code *class Counter:*  
 *count = 0*  
 *def increment(self):*  
 *self.count += 1*

The last point you mention is also important, though not so much, for the complete and rapid recovery of the patient, and that is to have the patient eat as soon as possible after the operation. This is a very important point, because the patient will feel better, and the appetite will return more quickly if he has something to eat. The best thing to eat is a light meal, such as soup or a sandwich, and then a small amount of fruit or vegetables. This will help to restore the patient's strength and energy, and will also prevent him from becoming constipated.

Per la seva part, el treballador del Consell d'Indústria i Comerç de Girona (CIC) agafà després un paper important per tal que es realitzés el seu informe. En l'assentament del Consell d'Indústria i Comerç de Girona es va proposar una nova estratègia econòmica i social que va ser acceptada per la majoria dels representants de les 120000 persones que formaven el Consell "TERRASSA". Els altres consells de representants d'empreses, els grups industrials i els sindicats, en van trobar-se d'acord amb la proposta, que va ser votada favorablement el 19 d'abril de 1986. Aquesta proposta va ser presentada per l'entitat d'empreses i treballadors de Tarragona, la qual havia estat la primera a aprovar la seva estratègia econòmica i social, el 1985.
