It is also important to note that the relationship between the two variables is not linear. The relationship is non-linear and non-monotonic. The relationship is non-linear because the relationship between the two variables is not a straight line. The relationship is non-monotonic because the relationship between the two variables is not always increasing or always decreasing. The relationship is non-linear and non-monotonic because the relationship between the two variables is not a straight line and is not always increasing or always decreasing.
