

NELSON'S NEW DRAWING COURSE

BY J. VAUGHAN

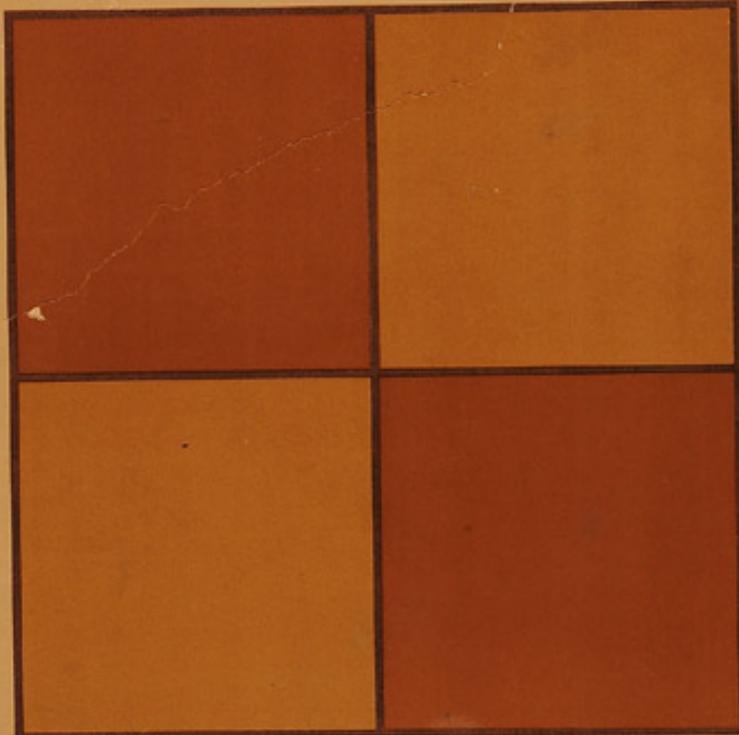

MECHANICAL OR TECHNICAL DRAWING AND MANUAL OCCUPATIONS

STAGE I.

SHEET 1.

Simple developments of the square by means of the silver ink. Two equal parts. Single borders.

Mark—The student is to use the following sheet for his first or second exercise in paper modelling or "modeling". The sheet is to be divided into four equal parts by a vertical line and a horizontal line, intersecting at the center. The four parts are to be numbered 1, 2, 3, and 4, in the order in which they are to be used. The student is to use the silver ink in the drawing and should bring a part of every drawing exercise to the teacher for inspection. The student is to use the silver ink in the drawing and should bring a part of every drawing exercise to the teacher for inspection. The student is to use the silver ink in the drawing and should bring a part of every drawing exercise to the teacher for inspection. The student is to use the silver ink in the drawing and should bring a part of every drawing exercise to the teacher for inspection.
