Figure 1: A line graph showing the percentage of respondents who believe that the use of force is justified in various circumstances. The x-axis represents the percentage of respondents who believe that the use of force is justified, ranging from 0 to 100. The y-axis represents the percentage of respondents who believe that the use of force is justified, ranging from 0 to 100. The graph shows that the majority of respondents believe that the use of force is justified in all circumstances, with the highest percentage of respondents (around 80%) believing that the use of force is justified in all circumstances.
