Abstract

The following table shows the results of the regression analysis for the dependent variable "Number of children in the household" (N = 1,000). The table includes the coefficient estimates, standard errors, and t-statistics for each independent variable. The dependent variable is measured in the number of children in the household, ranging from 0 to 10. The independent variables are: Age, Sex, Education, Income, and Race. The table is presented in a standard regression format with columns for the variable name, the coefficient estimate, the standard error, and the t-statistic.
