

**OPERATION ALIANCE...
SANGRE DE CORPUS CHRISTI**

© 2005 Blackwell Publishing Ltd, *Journal of Internal Medicine* 258: 105–112

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

[illegible]

These authors also found that the use of a single, non-validated questionnaire to assess the prevalence of depression in the community was not sufficient to detect the true prevalence of depression. They also found that the use of a single, non-validated questionnaire to assess the prevalence of depression in the community was not sufficient to detect the true prevalence of depression.
