There are a number of reasons why the results of the study may not be generalizable to other populations. First, the study was conducted in a single institution, and the results may be specific to that institution. Second, the study was conducted in a single country, and the results may be specific to that country. Third, the study was conducted in a single time period, and the results may be specific to that time period. Fourth, the study was conducted in a single population, and the results may be specific to that population. Fifth, the study was conducted in a single setting, and the results may be specific to that setting. Sixth, the study was conducted in a single context, and the results may be specific to that context. Seventh, the study was conducted in a single environment, and the results may be specific to that environment. Eighth, the study was conducted in a single culture, and the results may be specific to that culture. Ninth, the study was conducted in a single society, and the results may be specific to that society. Tenth, the study was conducted in a single world, and the results may be specific to that world.

It is the author's hope that this book will provide a useful guide to the many different ways in which the world's languages are being used to express the richness of human experience.

Full-time work in the summer. College in the fall, and I'll be on my own again. I'm looking forward to it.

—Jill, a member of the Blue Mountains Chapter

There's always been a strong sense of community in the area, and it's a great feeling to be part of it. I'm looking forward to it.

—Jill, a member of the Blue Mountains Chapter

ACKNOWLEDGMENTS

Dr. M. M. HARRIS, Jr., and his wife, Mrs. M. M. Harris, are the proprietors of the Harris Hotel, located at the corner of 10th and 11th streets, in the city of New Orleans. The hotel is a large, modern building, and is one of the best equipped in the city. Dr. Harris is a graduate of the University of Louisiana, and has been practicing medicine for many years. He is a member of the Louisiana Medical Association, and is also a member of the American Medical Association. Mrs. Harris is a graduate of the University of Louisiana, and is also a member of the American Medical Association. The Harris Hotel is a popular place for tourists, and is also a favorite place for the local people. It is a comfortable and convenient place to stay, and is well equipped with all the modern conveniences. The Harris Hotel is a fine example of the hospitality of the city of New Orleans.
