The author has demonstrated a phylogenetic hierarchy among the 100,000 *Escherichia coli* strains. The phylogenetic tree is based on the analysis of 16S rRNA sequences. The author has shown that the 16S rRNA sequences of *E. coli* strains are highly conserved, and that the sequences of the 16S rRNA genes of *E. coli* strains are highly conserved. The author has also shown that the sequences of the 16S rRNA genes of *E. coli* strains are highly conserved. The author has also shown that the sequences of the 16S rRNA genes of *E. coli* strains are highly conserved.
