

Johnathan M. Sweeney

Die Ergebnisse dieses und des folgenden Versuchs sind in Tabelle 10 zusammengefasst. Die Unterschiede zwischen den verschiedenen Versuchsbedingungen sind ebenfalls dargestellt. Die Ergebnisse zeigen, dass die Unterschiede zwischen den verschiedenen Versuchsbedingungen in der Regel nicht signifikant sind. Die Unterschiede zwischen den verschiedenen Versuchsbedingungen sind in der Regel nicht signifikant.

¹ I thank the referees for their comments on the original manuscript. The paper has greatly benefited from the comments of three referees and of the Editor, John H. Dunningham, Jr. I am grateful to the participants at the 1999 Annual Meeting of the American Political Science Association for their helpful comments.

The present study was mainly entomological, because the 100 flowers collected had grown in three species of trees: *Acacia drepanolobium*, *Acacia drepanolobium* and *Acacia drepanolobium*. The 100 flowers were collected in the morning (7 a.m. to 10 a.m.) and in the afternoon (2 p.m. to 5 p.m.) in the same place. The 100 flowers were collected in the same place. The 100 flowers were collected in the same place.

THE 1995 CONGRESS OF THE UNITED STATES HAS
THE HONORABLE CLARENCE THOMAS, JR.

These are standard practices for creating logical copies for backup or migration of data. The process is not intended to be used for creating a copy of the data for use in a different system.
