From examples such as this, it seems reasonable, therefore, that the fact that a species persists over a wide range of sites, but slight ones here and there, is a consequence of the large size of the communities. In contrast, slight changes of species composition between two communities separated by 50 km could have considerable local significance. We are aware also of the fact, especially the past, that of the great diversity of the

in obtaining information is that more people have to participate. It requires an extension of the full range of information that includes the information necessary to supply a diagnosis, not everyone has lots of time and resources available, and the question arises: by whom and to whom? *J. RESUMEN

El semanario político-cultural Numen fue inicialmente publicado en Valparaíso y luego se trasladó a Santiago, en donde se editó en los talleres de la imprenta homónima. La publicación dio cuenta de las actividades políticas de trabajadores y de estudiantes universitarios y difundió textos sobre artes, filosofía y obras literarias. Su principal director fue Juan Egaña, con la colaboración, en diferentes momentos, de Alberto Moreno, Luis Roberto Boza, Santiago Labarca y Pablo de Rokha.
